AcroSeal™ Packaging: The Solution for Moisture and Air Sensitive Applications

The innovative quadrant style screw cap with the specially designed septum provides:

- **Convenience:** large surface area with easy access to large amount of products.
- **Quality:** the specially designed septum ensures better re-seal.
- **Safety:** minimizes the potential needle puncture related incidents.
- **Performance:** reduces the rate of moisture uptake by up to 50% compared to competitive packaging.

Offering 50% more products in AcroSeal Packaging

- **Extra Dry Solvents:** extensive offering with over 50 different solvents with up to four different pack sizes.
- **Organometallic Compounds:** broad selection including Grignard reagents, organolithium, and organoaluminum compounds.
- **Reagents in solution:** commonly used reactive reagents and corrosive gaseous reagents in the ready to use solutions.
- **Deuterated NMR Solvents:** offers a low cost alternative to ampoule packaging.
- **Organics:** selective air/moisture sensitive organics.

Adapting to Your Needs

As part of the Thermo Fisher Scientific broad portfolio of laboratory products and services, Acros Organics is a leading brand of organics and fine chemicals.

Highly focused on the evolving trends in organic chemistry, the Acros Organics brand supports research, development and drug discovery through a broad range of off-the-shelf products and expertise in sourcing, manufacturing and technology partnerships. We continue to enhance our offering to meet your changing needs — enabling you to do your research more effectively and bring your products to market faster.

Whether you are involved in organic chemistry, medicinal chemistry, analytical chemistry or biochemistry, we will soon offer you:

- ✓ More pack size choices for over 5,000 products;
- ✓ Enhanced Acros.com Web site, with many new features;
- ✓ Rapid expansion of the AcroSeal product line;
- Continual development of our portfolio — more than 1,000 new core products;
- Improved service through supply chain optimization and better inventory management;
- A dedicated reference handbook for organic chemicals.
